Dear Friends,

N. L. Dalmia Institute of Management Studies & Research continues to serve the corporate and academicians. It is certainly a matter of immense satisfaction and pride that we are getting continuous positive feedback from the corporates, that our alumni are excelling in their performance and taking their respective organizations to greater heights. The fact that most of the recruiters keep visiting the campus year after year to recruit our students both for summer internship and final placements itself is the proof of the corporate world’s confidence in us. We are also pleased to place on records that our placement partners actively join us in all our activities right from selecting candidates for new batch to complementing our efforts by visiting the campus for guest lectures highlighting the current industry practices.

We immensely value our relationship with you and find pleasure in keeping in constant touch with you. We are grateful to you for your support, which helps us our excel in jobs as academicians and meeting your expectations.

We invite and welcome all the leading Indian organizations and transnationals to visit our campus for offering job opportunities to our students. But for your great support and proactive inputs, we would not have been where we are today in this fast moving competitive world.

We welcome you once again to our campus and are sincerely waiting for the opportunity to serve you.

Warm regards,

Dr. Anil Gor
